***Intelligence plus character-that is the goal of true education.***

- Martin Luther King, Jr.

The evolution of the world's most active citizens, the youth, marks the beginning of global transformation. A person can confront new problems, make progress, and lead a successful life with the help of the best education. All the children should be encouraged to enrol in the appropriate educational institution and receive a proper education.

The leadership of CVR foundation is dedicated to offer high-quality education as well as opportunities to identify and develop latent talent in a variety of fields. Imbued with the passion of providing a quality education that meets international standards for the marginalised and vulnerable children NAVANEETA PUBLIC SCHOOL was started. Keeping abreast of this contemporary world of cutthroat competitions, Navaneeta Public School strives to create an inter-disciplinary and comprehensive academic atmosphere that allows children to learn without stress. At our school, education is about more than simply academic prowess; it's also about fostering an atmosphere in which interpersonal skills and cultural diversity can coexist. We instill the virtues of imaginative thinking, gaining self-assurance, respecting the ideas and values of others, and fostering of a spirit of tolerance.

We must always keep in mind that the ultimate goal of real education is character-driven knowledge. I'm glad to report that NAVANEETA PUBLIC SCHOOL is dedicated to offering a comprehensive education that helps to develop in kids a strong academic foundation, moral character, and social integration. I'm thrilled to welcome each and every student to the realm of education, and I wish them all the success in discovering and realising their full potential.

Thank You!
